

BOEING COMPOSITES MALAYSIA

Project Engineer

We are seeking a highly skilled and motivated Project Engineer to join our project team. The Project Engineer will be responsible for overseeing and managing a range of engineering projects, including Civil, Structural, Architectural (CSA), Mechanical & Electrical (M&E), and Machine Installation, from start to completion.

Responsibilities

Project Management:

- Plan, execute, and oversee engineering projects
- Coordinate with cross-functional teams to ensure seamless project execution.
- Develop detailed project plans, schedules, and budgets.

Budget Management:

- Monitor project expenditures and ensure they remain within budget.
- Identify cost-saving opportunities without compromising quality.
- Prepare and review budget reports

Technical Oversight:

- Provide technical guidance and support to project teams
- Review and approve technical designs, specifications, and documentation
- Conduct feasibility studies, site inspections, and technical assessments

Communication & Reporting:

- Serve as the primary point of contact for clients, stakeholders, and team members
- Prepare and present project status reports, proposals, and technical documentation
- Ensure clear and effective communication across all project phases

Quality & Compliance:

- Ensure all projects comply with industry standards, regulations, and company policies
- Implement quality control measures and conduct regular audits to maintain high standards

Resource Management:

- Monitor project progress and adjust plans as needed to achieve goals
- Manage subcontractors and vendors, ensuring their work meets project requirements

Continuous Improvement:

- Identify opportunities for process improvements and implement best practices
- Stay updated with the latest industry trends, technologies, and methodologies

Requirements

- Bachelor's degree in Engineering (Civil, Mechanical, Electrical, or related field)
- Minimum [3] years of experience in project engineering or management roles
- Proficiency in project management software (e.g., MS Project, AutoCAD)
